

Eternal Salvation

Joe Pringle

You are our living revelation
You found my lock and turned Your key
Opened every dream in me

You are eternal salvation
Remove the veil, unleash Your light
You gave new heart to this life

No one can steal away
This light inside of me
The voices singing the name of Jesus
The church will rise as one.

We give You all the honour
All the glory
All the praise
The name of Jesus saves

The world can say what they want
But I know the saviour of the lost
You live in me...

A love so true, He came and died
For every man, those who deny
Those who praise and those who cry
Jesus

Grace that gives back innocence
Grace that heals the brokenness
Grace that fills our weakness
With Jesus
