

## SPECIALISING IN CONTEMPORARY SONG WRITING

The songwriter: takes simple words, combines them with melodies and creates expressions by which others mark life's milestones, to which nations rally, songs that help us cry, that bring us joy. Songs that capture and map the human heart. Songs that proclaim truth. Songs that help us enter the gates of heaven and touch the heart of almighty God. Songs through which almighty God brings healing, redemption, a new breath of life. Songs of influence...

The focus is on teaching you how to use the techniques of lyric and music writing - the tools for crafting songs of influence.

Learn to be the pen of God, writing His heart, writing His songs of influence.

**Check out the music of some of the Song writing graduates of the College over the last 5 years:**
