

# SECOND LIFE

## Verse 1

Day by day I choose again  
The second life that drew me in  
The voice that told me who I am

## Verse 2

You took my pride You took my fall  
This heart of old new in Your call  
Align the path that lays before

## Pre Chorus

You spoke the words You called the light it flooded in  
You are the one that stretched Your arms carried the dream

## Chorus

I found life in what I gave away  
I'm found whole in your light  
I come racing

Back to Your heart where I breathe again  
Back to the place of second life  
and I come racing

## Verse 1

Day by day I choose again  
The second life that drew me in  
The voice that told me who I am

## Verse 2

You took my pride You took my fall  
This heart of old new in Your call  
Align the path that lays before

## Pre Chorus

You spoke the words You called the light it flooded in  
You are the one that stretched Your arms carried the dream

## Chorus

I found life in what I gave away  
I'm found whole in your light  
I come racing

Back to Your heart where I breathe again  
Back to the place of second life  
and I come

## Bridge

Racing back to where I belong  
Your sword Your shield my strength  
My Strength to carry on  
Running with a fire, with Heaven's song  
Inside me

## Chorus

I found life in what I gave away  
I'm found whole in your light  
I come racing

Back to Your heart where I breathe again  
Back to the place of second life  
and I come racing
